The new Department of Immunology at Harvard Medical School invites applications for a tenure-track position at the rank of Assistant Professor. We seek an outstanding scientist performing basic and/or translational research in any area of innate or adaptive immunity. This position offers outstanding scholarly and scientific resources in a collegial and collaborative department with strong ties to related departments throughout Harvard University, the Harvard-affiliated teaching hospitals and the Boston immunology community. The position offers the opportunity to teach exceptional graduate and medical students with strong interests in immunology. The research space will be located in a modern and central research building at Harvard Medical School. Candidates must have a Ph.D., an M.D. or an equivalent graduate degree.

For consideration please upload to the website below a cover letter, a C.V. (including a list of publications), and a concise summary of research accomplishments and future interests. Three letters of recommendation will be required – to be submitted by the application deadline.

The application deadline is December 7, 2018.

Submit all materials via http://academicpositions.harvard.edu/postings/8452

We are an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status, protected veteran status, gender identity, sexual orientation, pregnancy and pregnancy-related conditions or any other characteristic protected by law.
